PROFILE INFO

UX/UI designer with a background in hospitality, graphic design, marketing and communications. I am passionate about design and my background in graphic design has helped me create UI designs that are aesthetically pleasing and functional. I am highly skilled at communications due to my hospitality background, where listening and finding a solution to a guest's problem is pivotal. My goal is to find a job opportunity hopefully in a tech company where I can further my knowledge in UX/UI Design and Front-End Development and be part of a team that pushes the boundaries of design and aspires to transform ideas into a visually pleasing reality.

UX/UI DESIGN PROJECTS

Feb 2022 - May 2022 Awaken Health/Wellness App

CareerFoundry

Used design guidelines and knowledge of mobile design patterns, layouts, and interactions to design, wireframe and prototype for a healthcare/wellness native mobile app for iOS and Android.

Dec 2021 - Feb 2022 Le Petit Pets Pet Service App

CareerFoundry

Conducted competitive analysis research, designed personas, drew user flows, sketched designs. Adapted different breakpoints for designs, got feedback from users and wrapped up project mockup for the pet service app Le Petit Pets.
